

AIMday® Image – a unique possibility for industry to discuss questions in image analysis with academic researchers from Swedish universities.

March 7, 2012

in conjunction with SSBA at KTH, Royal Institute of Technology

AIMday® is a forum for knowledge exchange between industry and academia that uses questions from the participating companies as its starting point.

We cordially invite you to participate in AIMday Image. Questions from participating companies will be matched to academic researchers with relevant expertise and during the AIMday conference be addressed in smaller discussion groups.

Registration of at least one question is the entry ticket for industrial participants! Registration to participate in the discussion of one question is the entry ticket for academics.

Registration deadline for industry participants is December 5, 2011 and for academics January 16, 2012. Participation in the conference is free of charge.

Feel free to forward this invitation to interested colleagues!

Register through the conference home page: [www.akademikonferens.uu.se/aimdayimage2012](http://www.akademikonferens.uu.se/aimdayimage2012).

For further information, please see the conference home page or contact us!

AIMday® Image is arranged by Uppsala University and KTH in collaboration with SSBA.

## Welcome!
